

Thank you for prescribing to the National University of Natural Medicine's Medicinary for your patient's healthcare needs. Please set aside some time and read through this information as some details may have changed since you last prescribed through us.

How to use this document:

In this document you will find our **list of compounding products**, updated as of August of 2026. NUNM's medicinary is home to a wide variety of both **Naturopathic and Traditional East Asian medicines ranging from Tinctures, Granules (single and pre blended), Bulk Herbs, Flower Essences, Homeopathics, Over the Counter Supplements, and more. We do NOT house or dispense pharmaceutical medications.**

We pride ourselves on having **one of the largest varieties of natural medicinals in the United States** housed under one roof. We keep this inventory as our prescribers vary in discipline and expertise. If we happen to be out of stock of a certain item, we will reach out to you for substitutions.

The best way to get a prescription to us is via our Online Prescription Form. Please reference this document to ensure we carry what you want to prescribe based on your scope of practice. On your keyboard, **CTRL+F** can be used for quickly search for keywords on non Apple computers. Apple computers use **CMD(⌘)+F** for this same tool.

[CLICK HERE](#) to access our Online Prescription Form page with some details for you to be familiar with. About a third of the way down the page, you'll find the **Prescription Order button**. Click this button and it will bring you to our Microsoft Form for you to fill out.

To save you time, **you can email your request for a pre-filled form to bunderwood@nunm.edu**. In your request, send over the provider's First and Last Names, License Type, *Individual* NPI number, and an appropriate phone number to contact for substitutions and other questions. Once you receive the link, **save it in an easy to find place on your computer (starred/favorited email folders work great)**. When you need to prescribe something for your patients, **all you need to do is click the link**, the administrative details should already be filled out for you.

A great way to further support natural healthcare education is by utilizing NUNM's Fullscript Account. We use this in our day-to-day operations for special orders/when we happen to be out of stock of certain OTC items. Your support would mean the world.

Thank you again for prescribing to the NUNM Medicinary. We look forward to serving your patients and your community.
